Mat.Works provides a survey and installation service on all Frameworks projects.

FRAMEWORKS 17OP & 22OP

Description:

Frameworks 17OP and 22OP are heavy traffic entrance matting systems. Both systems incorporate a rollable, grid style, open surface construction. The open surface grid system allows dirt to fall into specially designed debris channels whilst allowing the textile inserts to wipe moisture from feet.

Wide variety of wiper strips to suit almost any application with 16 different colourways.

The extruded aluminium profiles are assembled using PVC hinges which incorporates an integral damper strip. PVC hinges enable easier on site shaping.

Custom made to required sizes.

A drainable 17DR is also available.

Anadised version available in black and bronze.

Colours:

16 colour options available: see page 9.

Accessories:

Frameworks accessories – see page 56 for further details. For simple rectangular mats, Frameworks can be made to exact requirements. For more complicated shapes, Mat.Works recommends one of our approved installers.

accessories

Ramped frames & surface mounted installations:

Internal and external ramp frames are supplied mitred and drilled.

The surface is ribbed for enhanced grip

Treadloc 25 Ramping Solution

Give Treadloc 25 added flexibility with the additional surface mounted ramping solution.

See pages 22 and 23 for more information.

T-Bars

Mat.Works T-Bars provide separation between modules.

Available for all Frameworks products.

Framing

Mat.Works has a range of framing options to suit every matting requirement.

Frames range from 10 mm to 25 mm on all Frameworks products.
