PRODUCT

Ultra-matt is more than just a surface.

The new ultra-matt finish lends the decors an extraordinary sense of naturalness and depth. Light is gently absorbed rather than reflected. Textures appear calmer, more authentic and of a higher quality.

More character. More impact in the room.

- A particularly natural look
- Pleasant to the touch
- A calm, even surface effect
- Easy to maintain and hard-wearing

Subtle wood structure

Matt wood Structure

Matt stone structure

Feel the performance.

With a wear layer of 0.55 mm, EXPONA COMMERCIAL CLIC is ideally suited for both commercial and domestic use. This robust design flooring offers a host of technical advantages.
Furthermore, EXPONA COMMERCIAL CLIC is manufactured using phthalate-free plasticisers – an added bonus for a healthy indoor environment.

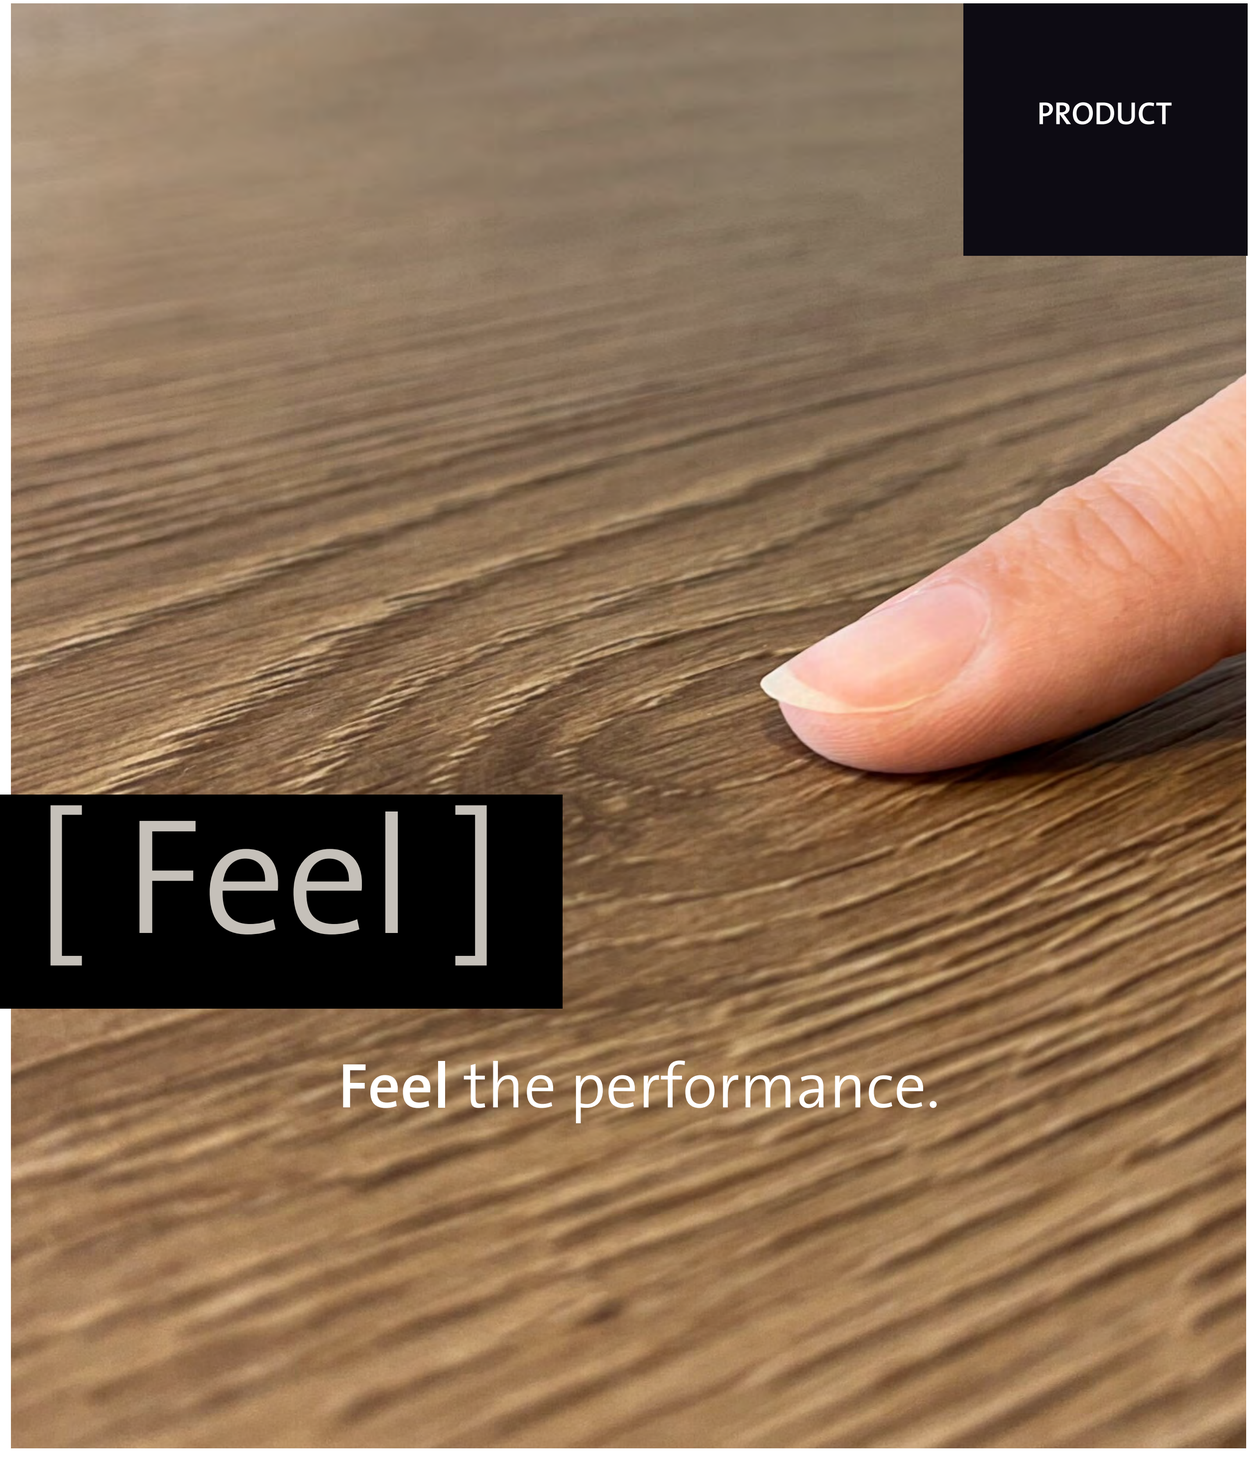

No visible subfloor imperfections -
ideal for renovations – can be laid over tiles – minimal subfloor preparation required.

19 dB impact sound reduction
noticeably quiet – integrated acoustic foam backing – no additional underlay required.

- 5G/2G Välinge system, easy mounting & perfect locking
- For areas with heavy loads and use
- Particularly quiet
- No show-through, laying on tiles possible
- 100 % waterproof
- Low installation height of 6,5 mm
- Schnelle Verlegung, Boden sofort begehbar
- Quick installation, floor immediately walkable
- Surface soft and warm underfoot
- PUR coating – easy cleaning and maintenance

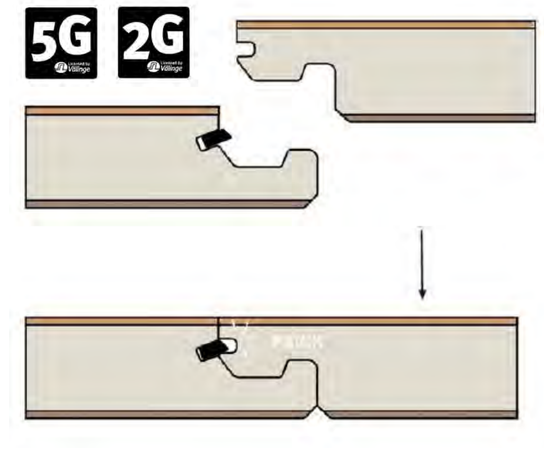

5G / 2G - secure, quick, convenient

Every plank and tile is fitted with the tried-and-tested 5G/2G system. For particularly simple, secure and quick installation with a perfect interlocking fit

The system enables efficient installation without tools. Thanks to a special, integrated plastic tongue at the end, the planks click securely into place when pressed down. The result is a stable, flush lock both horizontally and vertically.

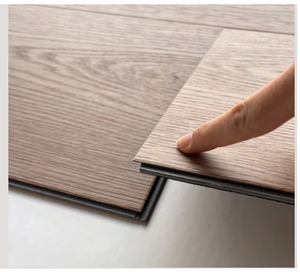

Advantages of the 5G/2G system:

Quick installation:
The panels are angled at the long side and locked into place at the end by simply pressing down (fold-down).

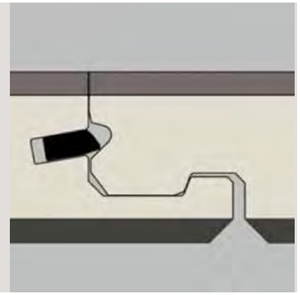

High stability:
An elastic spring snaps into a wedge groove, ensuring a firm connection, often accompanied by an audible ‘click’.

Easy dismantling:
The panels can be easily released and repositioned if required.

Fold-down installation
The quick and easy locking system, requiring no additional tools.

Plastic spring:
Thanks to a special, integrated plastic spring at the end, the planks click into place when pressed down.

See the layers. Feel the quality.

EXPONA COMMERCIAL CLIC planks and tiles consist of several layers that are thermally bonded and thus firmly joined together. The surface is pre-treated with a PUR coating at the factory.

PUR-finish –
easy cleaning and maintenance

0,55 mm wear layer

For areas subject to heavy wear and use, class 34 & 23

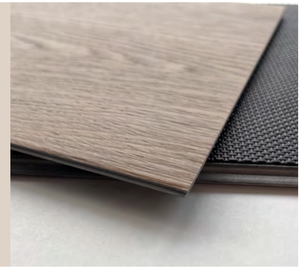

Warm-to-the-foot surface

Easy to maintain and hard-wearing

Particularly quiet (19 dB) thanks to the IXPE impact sound insulation layer

Low installation height of 6.5 mm

ideal for renovations

100 % waterproof -

suitable for damp rooms and high-traffic areas

COLLECTION OVERVIEW

Nature is our inspiration.

A design floor is more than just a functional surface – it shapes rooms and sets stylistic accents. But how do you create a decor that looks modern while remaining natural and timeless?

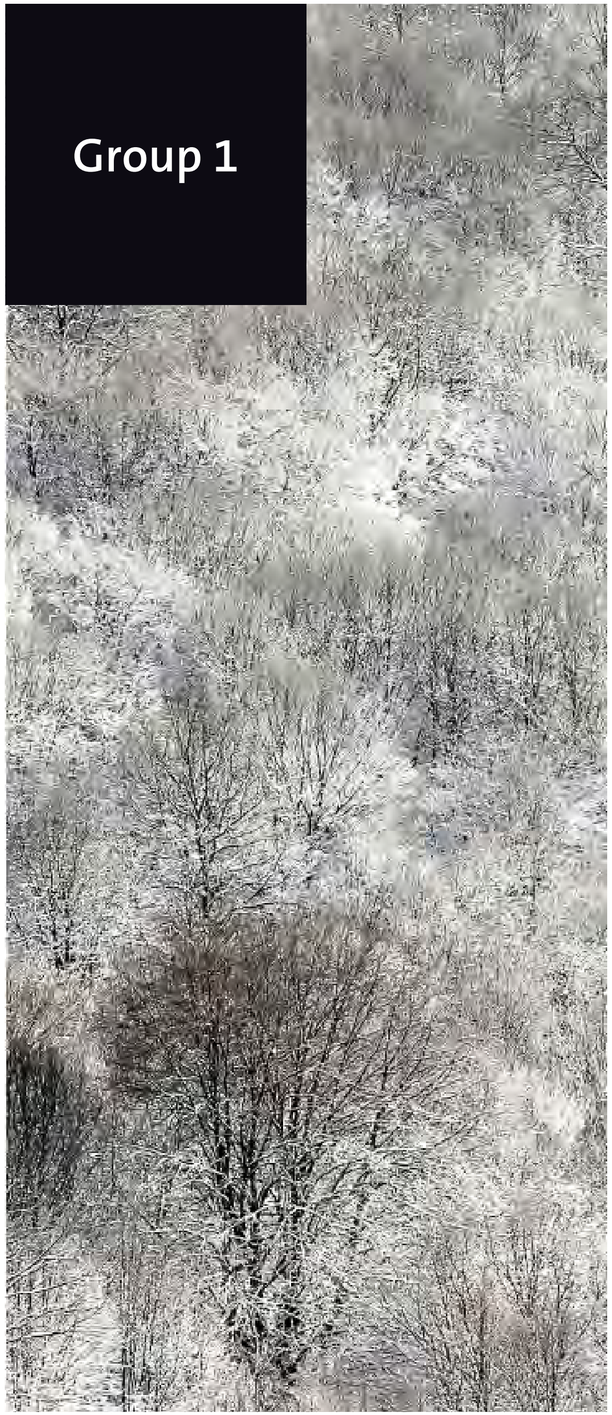

The answer lies in the interplay of trend awareness, design expertise and technical precision. And the rule is: nature is always the model.

Our designers analyse international trends, talk to architects and draw inspiration from art, fashion and nature. The aim is not only to reflect the spirit of the times, but to be ahead of it. Today, the focus is on calm woods, soft stone decors and matt surfaces – minimalist, harmonious, authentic.

The focus today is on calm wood finishes, subtle stone looks and matt surfaces – understated, harmonious and authentic.

Colours, textures and details are carefully composed so that every EXPONA finish looks natural whilst meeting the demands of everyday life.

Group 1

See [Feel]

Calm Surface. Bold Design.
Natural grain patterns, understated colour schemes and ultra-matt finishes create a warm, high-quality ambience.

9101
Linen Oak

A soft oak shade in a light cream tone and generous size with a subtle texture – for a timeless flooring concept with an ultra-matt finish.

- Plank
- Bevelled edges
- Subtle wood structure
- Ultra-matt surface

EXPONA SIMPLAY Carpets ENTRANCE.

Planks for entrance areas.

It’s a well-known fact that first impressions count. And that’s why our entrance planks are the perfect complement to the EXPONA COMMERCIAL CLIC range – particularly in foyers.

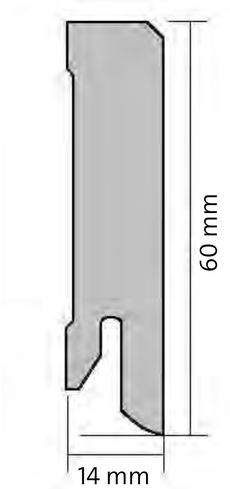

177,8 x 1219,2 mm

Further information

Skirting boards.

Each of the design floors in our range can be paired with matching skirting boards made from top-quality MDF base with a protective film covering. The collection also contains three neutral skirting boards in Classic Black, Alu Metallic and White. The CLIPSTAR system is perfect for installing flooring without any unsightly screws.

CLIPSTAR

Content per box
5 pieces | length 2,40 m per piece

Contents: 50 Clips and fastening material
Space between clips: 25-50 cm
Item no.: Clips

Technical data

Connected to nature.
Committed to responsibility.

We develop EXPONA COMMERCIAL CLIC with a conscious focus on quality, longevity and the responsible use of resources. Regular testing of emission properties provides reassurance and transparency – for floor coverings that meet high quality standards and contribute to good indoor environmental quality.

In France, product tests are performed using the test method in accordance with ISO 16000 and the emissions behaviour of VOCs is assessed. All EXPONA flooring has been given the best rating A+.

EXPONA design flooring has the “Indoor Air Comfort Gold” rating. This certificate issued by Eurofins is awarded to products with VOC emission levels below any globally determined VOC limits. All EXPONA flooring is also 100% recyclable and can be reused in materials and fuel. The recycled materials are integrated into new production insofar as this is possible.

As a member of the European Resilient Flooring Manufacturer’s Institute (ERFMI), objectflor – a subsidiary of James Halstead plc – supports the goal of sustainable building and has drawn up an environmental product declaration (EPD) for the flooring EXPONA COMMERCIAL. EXPONA floorings have been assessed in accordance with the EN 15804 programme of the “Institut Bauen und Umwelt e.V.” (IBU) for ecological building assessment.

EXPONA floorings hold FloorScore, BRE and LEED Credits certification around the world.

EXPONA COMMERCIAL CLIC: LVT flooring with a rigid base produced using phthalate-free plasticisers, backed with an IXPE impact sound insulation layer and the patented 5G/2G Välinge floating floor system.
